

Sermon

Easter Sunday

Erin Glanville, Lead Pastor

The cross tells us the world is worth fixing!
What needs to be fixed in the world?
Write those things on the pathway stones.

A decorative graphic on the left side of the slide. It features a dark green background with a light cream-colored wavy path that starts from the top left and curves downwards towards the bottom right. Scattered along this path are numerous small green dots of varying sizes.

Imagine you are going on a long walk with Jesus
Draw Jesus and you walking together
What would you talk about?
What questions would you have?
Write or draw them

**“Supper at
Emmaus”**

**Barredo
Maximino
Cerezo**

Easter tells us God is already at work fixing the world!
Where do you see joy or goodness or new life?
Write them on the pathway from the Easter cross.
